

Project Title:

Pharmacy Management System

Group Members:

Muhammad Faizan Wasif P200484

Hamza Shahid P200117

Project Introduction:

This is a Pharmacy Management System. The system will handle all the data related work, which was being handled manually before.

Project Features:

It will keep record of the stock i.e the medicines purchased and sold and will also keep employee records. The system will generate monthly reports.

Tools:

- Figma
- Django
- Draw IO
