(CL-2005) Database Systems Lab
Lab 5 Task

Your task is

1. **Themepark Registration Page**

   Create a form which contains the following field as shown in below figure. User should be able to submit the form. (using GET method). Upon submitting the form these submitted fields must be inserted in the themepark (database) that we have used throughout the labs.

   ## Theme Park Registration

   | Park Code | Park Name |
   | Park City | Park Country |

   Submit

2. **Themepark Record Page**

   Create another webpage in which all the themeparks that have been registered should be shown on this page in a table format which contains all the themepark details

   Add a search option as well to search for a specific themepark details using Park Code.

   ## ThemePark Records

   Search Park Code

   FR1001   Search

Park Code	Park Name	Park City	Park Country
FR1001	FairyLand	PARIS	FR
